10. What do you like about this module?

Your comments: Michel is a very good lecturer and clearly has a very good understanding of the course material. The material is interesting and useful.

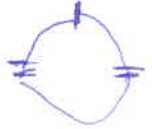

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments: Sturm-Liouville theory needs to be expanded more, it feels like it is a continuation of solving the heat equation. Basically more applications of S-L theory would be good.

Your comments:

- Clearly presented in an organised fashion
- The lecturer is very helpful in a lot of areas in addition to the module eg. career development, mental health

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

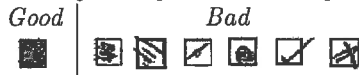

- More new material - has a lot of overlap with MP237 which was a core module for BUs
- More applications of the equations studied would be useful.
- More emphasis on the theory & understanding of the concepts

10. What do you like about this module?

Your comments:

I like the lectures, however the tutorial lecturer can be hard to understand. I like everything except the tutorials.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

Have homework assignments instead of class tests. Maybe 2 homeworks and 1 test.

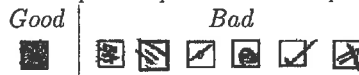

Also a tutorial lecturer with better english would help a bit.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

- The Tutor is hard to understand.
- Writes very small.
- Uses Red mark which is heard to see  
or faded
- Goes too slow.
